PROJECTS FUNDED BY THE SAN JUAN ISLAND COMMUNITY FOUNDATION IN 2022

Impact Report 2022

From the Foundation

What makes you feel connected to your island community?

Is it walking a familiar and loved trail? Perhaps sharing a meal with family and friends? Or maybe giving your time and resources to an island-based program or a cause that moves you?

In 2022, hundreds of community connections were made through the SJI Community Foundation. 619 islanders supported 92 unique organizations in a variety of ways.

- Through the SJI Community Foundation, donors provided grant funding for their favorite island non-profits. Last year a whopping 405 checks were distributed to help shore up our island's unique needs!
- Donors made legacy giving commitments, strengthening the community foundation endowment fund that underpins island programs and provides for progress long into the future.
- Dozens more islanders used the new online Volunteer Directory - hosted on our website - to find connection with organizations who need their time and expertise.

From education to the environment, arts to agriculture, children's programs to animal welfare, new benefits were created, services expanded, and educational opportunities grew. Islanders connected to each other, and lives were changed for the better.

As we extend our gratitude to our friends, neighbors and the many organizations that connect us all, allow us, also, to thank you for your commitment to this beautiful island.

The work of the Community Foundation would not have been possible without the generosity of the more than 600 people and organizations who donated in 2022. Contributions came from every corner of our community, with 50 percent of donations, \$100 or less.

FOR LOCAL STUDENTS

Community Impact

The SJI Community Foundation receives 100 percent of its financial support from generous islanders who believe in the importance of fostering a sustainable and healthy future for our island community.

A few highlights of how, with your help, we help:

Grantmaking

From arts to education, healthcare, environmental care, social services hospice and more, grants awarded to local nonprofits and government entities support a wide variety of community projects.

Nonprofit Organizational Support

No-cost consultation services are accessible and available to local nonprofits, helping them craft impactful projects as well as strengthening their organizations.

Scholarships

Supporting student education is one of our prime directives.

Financial Spotlight

With careful fund management, the Foundation was able to maintain our robust track record for contributions and grantmaking while keeping operations costs in check, despite the challenges caused by large spikes in inflation during the 2022 year.

In 2022, the Foundation's grant making exceeded \$1 million distributed for local impact grants and scholarship awards.
